FAQ

Why choose ResidentShield Power?

ResidentShield Power offers fixed per kilowatt hour (kWh) rates, giving you more predictability. Stable rates let you know what to expect on your power bill every month.

How do I enroll?

You can enroll directly through your RentCafe resident portal. It only takes a couple minutes and no separate login is needed.

How do I see and pay my ResidentShield Power bill?

ResidentShield Power is connected to your RentCafe resident portal. You can pay and view your bill, track energy usage, and manage everything related to your home's electricity in one place. ResidentShield Power will also send an email with your bill. It's easy to set up autopayment of your power bill in the RentCafe resident portal as well.

Does ResidentShield Power offer renewable energy?

Yes, ResidentShield Power offers 100% green energy. Offset your carbon footprint with renewable energy that's good for the planet. Our 100% green energy plans are backed by Renewable Energy Certificates (RECs), ensuring renewable energy is added to the grid to match your usage. In Texas, green energy may also include certain natural gas sources.

Where is ResidentShield Power available?

ResidentShield Power plans are currently available to residents at participating properties across most of the state of Texas. Availability in other states coming soon.

Check ResidentShield.com/power for more updates on additional locations.

What happens if I move?

Your contract ends when you move out, so you don't have to worry about cancelling your electricity account.

Can I cancel my electricity account while I am renting?

You can switch to another electricity provider at any time.

Can I transfer my electricity account to my roommate?

While you cannot transfer your electricity account to your roommate, it is easy for your roommate to start their own electricity account by logging into their RentCafe resident portal.

Get electricity today through your resident portal.
